# Sponsored Walk

Sanjay is raising funds for this school - Meru Deaf Unit in Arusha, where he was born.

The school is trying to dig its own water well at a cost of £7,000.

- they need teaching books
- Would like more dustless chalk
- Need overhead projectors
- Would love a video camera!
- An internet service would be a dream come true!

We are lucky - we have the internet, video cameras, books and pens better than chalk! We have access to water.....
