

CONSTRUCTION

The Construction Industry employs around 1.8 million people with skills acquired from appropriate training such as: Bricklaying, Carpentry, Painting and Decorating, Plastering and Plumbing.

All these trades are important elements of the construction industry. Currently there are shortages of skilled people within this country. Employers need a well trained and qualified workforce. We offer skills in most of these trades from Entry to Level 2.

Foundation Learning

Construction

Multi-Skills

Skills for Working Life

Entry 3

This programme offers a range of up to four trades at Entry Level 3 in Bricklaying, Joinery, Painting and Decorating and Health and Safety, the learner would then progress to either one or two skills at Level 1.

Preparation for

Employment

Entry 3

This course is designed to give learners preparation for employment in Plastering.

Foundation & beyond...

Brickwork

Construction Diploma

Level 1

This certificate is usually achieved within one year. It will include periods of work placement to show employers the skills and knowledge achieved.

Brickwork

Construction Diploma

Level 2

The skills and qualifications achieved with this Diploma are enhanced further when the learner starts work. The learners can then further their skills and knowledge by studying for the relevant qualification at Level 2 with the employer.

Carpentry & Joinery

Construction Diploma

Level 1

These Level 1 certificates can be achieved in one year of study. They give a very broad range of Joinery skills.

Carpentry & Joinery

Construction Diploma

Level 2

This award enhances the skills learned at Level 1 and prepares the learner for employment. A period of work placement give the opportunity to use the skills gained and builds confidence.

Painting & Decorating Construction Diploma Level 1

This programme gives a basic introduction to various processes.

Painting & Decorating Construction Diploma Level 2

This programme enhances the skills gained at Level 1 and prepares the learner for employment.

Plastering Construction Diploma Level 1

This programme gives the learner all the basic skills needed and awareness of processes to progress to the next level.

Plastering Construction Diploma Level 2

Anyone achieving this award will have the skills and techniques required to find employment in the industry.

National Award in Practical Plumbing Skills Level 1

This programme will teach the skills and techniques of Practical Plumbing. (Level 2 Plumbing is through mainstream College with support).
